Commissioner Kevin

Reference: FCC Docket Nos 96-45, 98-171, 90-571, 92-237, 99-200, 95-116,
98-170 and NSD File No. L-00-72.

Dear FCC:

I am writing to complain about the proposed changes to the Universal Service Fund and requesting that the FCC investigate this matter further before changing the current policy. Your proposed \$1.00 per month charge for all wireless phones will directly impact my ability to retain my wireless service.

I do not think it is fair to charge EVERYBODY \$1.00 dollar regardless of how they use their wireless phone, especially for a low-volume user that relies on wireless service for safety and security, not interstate calls. The current policy is fair, based on interstate usage, and should be left alone. Please do not penalize us. Keep this fair.

To whom it may concern:

We use our tracfone phone wireless service for emergency's between family members in case it's needed. We do not use it for interstate calls unless it's very important to contact in case of a production line shut down.

I don't have a problem paying a fee for the use if needed, but consider only the people who have wireless service paying for someone who does not have the service or don't want wireless service. Your imposing a fee on the portion of people who use it whether they place interstate calls regularly or once in a while. Suggestion : Amend a calling plan service based on the type of calls made from the phone's wireless service.

Thank You

Thank you for your prompt attention to this matter. Please provide a written response indicating the status/resolution of this matter.

Very truly yours,

Patrick Andree
